Hoagland: “Kokopelli ... and the End of Time”

In 2012, according to the Mayan Calendar, the World Ends

*In this breakthrough, lavishly illustrated presentation, Richard C. Hoagland
will unveil revolutionary new evidence, drawn from his decades-long
Enterprise Mission investigation of “ancient ET ruins in the Solar System” --
discovered by NASA over 40 years ago, but then ruthlessly suppressed --
regarding what is REALLY going to occur in 2012.*

*Over a quarter of a century in the making, Hoagland’s discoveries are based
on a critical ET geometric code found amid the Martian “Ruins of Cydonia” -*

- a code now pointing to an extraordinary Hyperdimensional Physics ... of “the End of Time.”

Drawing upon many correlating ancient traditions of this planet, from India to the American Southwest ... from the Vedas to the Maya, to the Aztec, the Anasazi and the Hopi ... Hoagland will lay out his unique, predictive, ET Hyperdimensional decoding of how “the Fourth World Ends ... and a New World Will Begin.”

Questions and Discussion

Lunch -- 12:00 PM – 1:00 PM

Afternoon Session – Part I -- 1:00 PM to 3:30 PM

Wilcock: “The 2012 Enigma”

To the slumbering masses, 2012 is just a year like any other. Yet an increasing number of mystics, gurus and metaphysicians point out that it is the end-date of the highly sophisticated calendar of the Mayans, which they alleged to be a critical turning point to usher in a Golden Age. Coincidentally or not, 2012 is also the end-date of the Age of Pisces in European mystical traditions. Wilcock brings hard science to the speculation on this convoluted issue, and concludes that there may very well be something to it – including documented NASA studies proving that our entire solar system is undergoing climate change just like the Earth

Questions and Discussion

Break – 3:30 PM to 4:00 PM

Afternoon Session – Part II -- 4:00 PM to 6:00 PM

Flynn: Part 1- “The Geometry of Time: Prelude to 2012”

A sophisticated knowledge of space and time was present from the beginning of earliest civilization. Though much of it has been lost, remaining records show that this knowledge was superior to modern understanding in many ways

The ancients viewed time as sacred and the comprehension of it, a gift from heaven. They believed that physical shape was a copy of time ... and ‘time’ was synonymous with ‘shape.’ They perceived the universe, earth, and the destiny of men as working together according to an intelligent design. Ancient records also indicate that the givers of heavenly knowledge left this design in the location and geometry of monuments around the Earth...

Because modern systems of measurement are rooted in greatest antiquity, what remains of the most ancient architectural record can be rediscovered and deciphered ... and its 'Message of Time' finally understood

Break – 5:00 PM – 5:15 PM

Dinner -- 6:30 PM – 8:00 PM

Evening Session – 8:30 PM to ... whenever.

Steve Halpern: “Healing the Planet with Sound and Music”

(Outside campfire stage activity, weather permitting)

Discover what Humanity truly needs to “remember” to enhance its current physical health and spiritual well-being – the right vibrations. Learn the ancient secrets of choosing and using the best sound vibrations ... for meditation, healing, immune system support, creativity, and even Tantric loving.

*You’ll also discover how these same ancient techniques -- applied by a critical mass of consciousness to an **entire planet** -- can potentially affect the “dissonant physics” underlying “the Coming Problem ... in 2012.”*

Highlights of this Special Evening Presentation include Halpern’s award-winning CHAKRA SUITE healing meditation, plus “OM Suite OM” from his sublime new masterpiece, TONAL ALCHEMY.

(Prelude to the unique “Halpern Sound and Healing Experience” – to take place in the **Integratron**, Sunday afternoon.)

Drumming and dance -- “Danza Azteca De Anahuac” – four-member Native American troupe from Taos, New Mexico, performing authentic ceremony in authentic regalia

(Outside activity around campfire -- weather permitting – with all conference participants invited to join in this special Native American ceremony)

Desert Astronomical Observing (outside activity, weather permitting)

“2012 Campfire Discussion” by Conference Participants

(outside activity, weather permitting)

Sunday (October 8)

Morning Meditation and Sacred Site Expedition – dawn

The head of “Danza Azteca De Anahuac,” Guillermo Chavez Rosette, leads a dawn expedition toward “Eagle Mountain” near the Joshua Tree Retreat Center – for Conference Participants initiation and ceremony at an authentic ancient Native American sacred site

Continental Breakfast – 7:00 AM to 9:00 AM

Morning Session – 9:00 AM to 11:00 AM

Wilcock: “Consciousness as an ‘HD Technology’ for Changing the Future”

The real meat of the 2012 case is found in “the science of consciousness,” as Wilcock will be featuring in his upcoming Hollywood film CONVERGENCE. Most Western scientists have overlooked one of the basic energy fields of the Universe, due in no small part to its strange properties. Laboratory research, particularly from formerly-suppressed Russian studies, suggests that this energy IS consciousness... as many mystical traditions assert. You will not only walk away with a dramatic new view of yourself and of how the world works ...you will have directly experienced the profoundly mind-expanding qualities of this energy in a safe group setting.

Richard C. Hoagland: “*The Real Meaning Behind President Bush’s Sudden Decision to ‘Return to the Moon’ ... and Its Hidden Links to ‘2012’*”

In January, 2004 -- more than 30 years after the last Apollo landing on the Moon -- President George W. Bush suddenly announced “a new plan to explore space and extend a human presence across our solar system” This surprising announcement not only called for a new spacecraft, vehicle and astronaut program to resume lunar exploration ... it also envisioned an ultimate extension of that program to the planet Mars!

*What **really** lies behind this sudden White House decision to “return humans to the Moon” ... and someday send them far beyond?*

*Mr. Hoagland -- with stunning, official photographic evidence from NASA’s previous Apollo Missions, as well as its current unmanned robotic missions on the surface and in orbit around Mars – will make the case that “quiet preparations for the possible events of 2012” are, in fact, the “missing puzzle piece” in NASA’s future plans ... pacing **all** of NASA’s otherwise “inexplicable” post shuttle and space station technological decisions*

Stay tuned.

Dinner – 6:30 PM to 8:00 PM

Evening Session – 8:30 PM to ... whenever

Richard C. Hoagland: “Kokopelli ... and the End of Time: The Hyperdimensional Solution”

A careful reading of the ancient Mayan, Vedic, Egyptian and other textual materials on “2012” -- coupled with an awareness of the variety of modern scientific studies which are now lending serious weight to their millennia-old conclusions -- argues compellingly that we could be rapidly approaching a physical, mental and spiritual “singularity” in contemporary human experience in 2012. Based on the ancient texts – which cites a rare but recurring “Galactic Center Alignment” between the Sun , the Galactic Center and the Earth as the potential cause -- this is NOT the first time this has happened

In fact, this approaching “singularity” seems closely correlated with the long-term, ~26,000-year, celestial “Precessional Cycle” subtly experienced by the Earth in its annual orbit of the Sun, as well as in its much longer orbit of the Milky Way Galaxy itself.

Enterprise “hands-on” experiments in Hyperdimensional Physics strongly support the idea that the Earth could experience serious physical concerns in the years ahead ... as this rare alignment happens.

Exactly “how” this could be happening -- as well as “what” we can DO about it -- will also be explored.

(outside campfire stage activity, weather permitting)

Questions and Discussion

Lunch – 12:00 PM to 1:00 PM

Afternoon Session – Part I -- 1:30 PM to 3:30 PM

Flynn: Part 2 - “The Contact Event at Roswell: a *Code* for 2012?”

SETI (or, the “Search for Extra-Terrestrial Intelligence”) has listened for messages containing the universal language of geometry and mathematics against the random radio noise of space. The discovery of such a numerical message from somewhere 'out there' would prove that extra terrestrial intelligent life exists...there would be no doubt. Yet, for over 40 years since the program began, no definitive contact has occurred, at least, not through humanity's focus on "listening"

... However, seeing is believing.

In 1947 a crashed disc of presumed extraterrestrial origin was recovered in Roswell New Mexico. Encoded in the location and timing of this event was the same universal language for which the SETI scientists have been searching. It is a message... and a warning ... designed to be revealed in our time.

Contact has been made
